# **Safety Data Sheet**

PRODUCT NAME: Technigro 24-7-15 Plus SDS #5016

Date of Issue: June 15, 2015 Supersedes: April 16, 2014

1. Product and Company Identification

Product Name: Technigro 24-7-15 Plus Recommended Uses: End-use fertilizer

Restrictions on Uses: None

Manufacturer/Supplier <u>Distributed in the USA by</u> <u>Distributed in Canada by</u>

Sun Gro Horticulture Distribution Inc.

Sun Gro Horticulture Distribution Inc.

Sun Gro Horticulture Canada Ltd.

770 Silver Street

**Emergency Telephone Number** 

For Chemical Emergency, Spill, Leak, Fire, Exposure or Accident Call CHEMTREC Day or Night.

For shipments and products within the US and Canada: 1-800-424-9300

For shipments and products travelling outside of the US and Canada: + 1 703-527-3887

2. Hazards Identification

Classification of the mixture

Classification of the chemical in accordance with 29CFR **§**1910.1200
Hazard Classes and Hazard Categories
Hazard Statements
Not classified as hazardous
None applicable

**Label elements** 

Hazard pictogramsNone applicableSignal wordNone applicableHazard StatementsNone applicablePrecautionary StatementsNone applicable

Other hazards None

Classification of the relevant ingredients of the mixture in accordance with 29CFR §1910.1200

Hazard classes and Hazard categories

Potassium Nitrate Oxidizing solid, Cat. 3

3. Composition/Information on Ingredients

This product is considered as a mixture/preparation

IngredientsCAS No.EC NoConcentrationPotassium Nitrate7757-79-1231-818-81%-45%Perchlorate (CIO4 )\*<45 ppm</td>Iodate (IO3 )\*<25 ppm</td>

\*This product contains naturally occurring trace amounts of perchlorate and iodate. The components are not regulated by 29CFR §1910.1200. Refer to <a href="www.dtsc.ca.gov/hazardouswaste/perchlorate">www.dtsc.ca.gov/hazardouswaste/perchlorate</a> and Section 15 for more information regarding California State regulations on handling and disposal.

# 4. First Aid Measures

## **Description of first aid measures**

#### **General information**

In case of persisting adverse effects consult a physician. Never give anything by mouth to an unconscious person, person having convulsions, or a person with cramps.

### In case of inhalation

Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention for any breathing difficulty

#### In case of skin contact

Wash with plenty of soap and water. If skin irritation occurs, get medical attention or advice.

### In case of eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists call a Poison Control Center or a doctor.

### In case of ingestion

If able, rinse mouth and drink plenty of water. Do not induce vomiting. Call a Poison Control Center or doctor if feeling unwell.

# More important symptoms and effects, both acute and delayed

The following symptoms may occur:

<u>In case of inhalation</u>: Irritation to respiratory tract. Delayed lung effects after short term exposure to thermal degradation products

<u>In case of skin contact</u>: May cause redness or irritation <u>In case of eye contact</u>: May cause redness or irritation

In case of ingestion: Ingestion of large amounts may cause gastrointestinal disturbances

Indication of any immediate medical attention and special treatment needed: Treat symptomatically.

# 5. Fire Fighting Measures

### **Extinguishing media:**

Suitable extinguishing media: Use any suitable mean for extinguishing surrounding fire.

<u>Unsuitable material</u>: None, but attention should be paid to compatibility with surrounding chemicals.

# Specific hazards arising from the chemical

Thermal decomposition which can lead to the escape of toxic or corrosive gases and vapors.

Thermal decomposition products: Nitrous oxides (NO<sub>x</sub>), nitrates, phosphorus oxides, ammonia and metallic oxides.

### Protective equipment and precautions for firefighters

Wear self-contained breathing apparatus and a chemical protective clothing.

# **6. Accidental Release Measures**

# **Personal precautions**

Provide adequate ventilation Wear personal protection equipment (Section 8).

# **Environmental precautions**

Do not allow to enter into surface water or drains. Ensure waste is collected and contained.

### Methods and material for containment and clean up

Take up mechanically, placing in appropriate containers for disposal or recovery.

Unsuitable material for containment or taking up: None specified

# Other information

None

# 7. Handling and Storage

# **Precautions for Safe Handling**

Avoid generation of dust. Provide adequate ventilation. Wear personal protective equipment, when required. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product.

# Conditions for safe storage, including any incompatibilities

Keep/store only in original container. Store in a locked, well-ventilated place. Keep container tightly closed.

# **8. Exposure Controls/Personal Protection**

**Exposure Guidelines:** Occupational exposure limits

Potassium Nitrate

OSHA - PEL Not established STEL/ceiling Not established

ACGIH (2012 TLVs® and BEIs®)

TWA Not established STEL/ceiling Not established

Technigro 24-7-15 Plus Page 2 of 6

# Derived No-Effect Level\* (DNEL) suggested by manufacturer: Workers (Industrial/professional):

#### Potassium Nitrate

DNEL Human, dermal, long term (repeated) 20.8 mg/kg/day (systemic)
DNEL Human, inhalation, long term (repeated) 36.7 mg/kg/day (systemic)

# **Engineering controls**

Use exhaust ventilation to keep airborne concentrations below exposure limits.

### **Personal Protective Equipment**

Eye/face protection: Chemical goggles required.
Skin protection: Nitrile rubber gloves, recommended.

Respiratory Protection: Wear respiratory protection, where airborne concentrations are expected to exceed exposure limits.

### **General Hygiene Considerations**

Avoid contact with eyes and skin. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product.

### 9. Physical and Chemical Properties

Appearance Solid, granular or crystalline

Color Pale Blue Odor Odorless Odor Threshold Not applicable pH value No data available Melting point/freezing range No data available Boiling temperature/boiling range Not applicable Flash Point Not applicable Vaporization rate/Evaporation rate No data available Flammable Solids Not flammable Explosion limits (LEL, UEL) Not applicable Vapor Pressure No data available Vapor Density No data available Relative Density No data available

Solubility > 100 g/L at 20°C/68°F (water)

Partition coefficient n-octanol/water
Auto Ignition temperature
Decomposition temperature
Viscosity

Not applicable
No data available
Not applicable

# Other information

Explosive properties Not explosive Oxidizing properties Not an oxidizer

### 10. Stability and Reactivity

#### Reactivity

No hazardous reaction when handled and stored according to provisions.

# Chemical stability

Stable under normal storage and temperature conditions.

### Possibility of hazardous reactions

None identified

# **Conditions to avoid**

None identified

### **Incompatible materials**

None identified

# **Hazardous decomposition products**

Thermal decomposition products: Nitrous oxides (NO<sub>x</sub>), nitrites, phosphorus oxides, ammonia and metallic oxides.

# 11. Toxicological Information

The following information refers to potassium nitrate.

# Likely routes of exposure (inhalation, ingestion, skin and eye contact)

Eye contact, skin contact and inhalation. Exposure by ingestion is not expected to occur through normal industrial or agricultural use.

# Symptoms related to the physical, chemical and toxicological characteristics

May be irritant to the respiratory tract. May cause redness or irritation to the skin and eyes. Ingestion of large amounts may cause gastrointestinal disturbances. May cause delayed lung effects after short term exposure to thermal degradation products.

Technigro 24-7-15 Plus Page 3 of 6

<sup>\* (</sup>Derived No-Effect Level (DNEL) is the level of exposure to the substance above which humans should not be exposed)

### Toxicological effects from short and long term exposure (No data for the mixture)

Acute toxicity:

Acute oral toxicity <u>LD50</u>:

Acute Toxicity Estimate for the mixture > 2000 mg/kg bw (additivity formula)

Potassium nitrate > 2000 mg/kg bw

Assessment/classification: Based on available data for the ingredients of the mixture, the classification criteria are not met.

Irritant and corrosive effects:

<u>Irritation to the skin</u> <u>Result</u> <u>Method</u>

Potassium nitrate non-irritant Equivalent/similar to OECD guideline 404
Assessment/classification: Based on available data, the classification criteria are not met

Irritation to the eyes Result Method

Potassium nitrate not irritating OECD Guideline 405

Assessment/classification: Based on available data, the classification criteria are not met

Respiratory or skin sensitization

<u>Skin sensitization</u> <u>Result</u> <u>Method</u>

Potassium nitrate not sensitizing OECD guideline 429

Respiratory sensitization No information available

Assessment/classification: Based on available data, the classification criteria are not met

Genetic effects: This product does not contain ingredients classified as germ cell mutagens.

Bacterial (Ames Test) Chromosomal aberrations Mutation in mammalian cells

Potassium nitrate Negative Negative Negative

Assessment/classification: Based on available data, the classification criteria are not met.

Reproductive toxicity: Adverse effects on sexual function and fertility/developmental toxicity: OECD guideline 422

Potassium nitrate: No adverse effects on fertility/development (NOAEL>1500 mg/kg bw) Assessment/classification: Based on available data, the classification criteria are not met.

### Specific target organ toxicity (single exposure)

The product does not contain relevant ingredients classified as Target Organ Toxicant.

Practical experience/human evidence

Potassium nitrate No relevant effect have been observed after single exposure

Assessment/classification: Based on available data, the classification criteria are not met.

# Specific target organ toxicity (repeated exposure)

Organs affected Effects Guideline

Potassium nitrate None No effects (NOAEL>1500 mg/kg/bw) OECD 422

Assessment/classification: Based on available data, the classification criteria are not met.

#### Aspiration hazard

Physicochemical data and toxicological information does not indicate an aspiration hazard. Assessment/classification: Based on available data, the classification criteria are not met

#### Carcinogenicity

International Agency for Research on Cancer (IARC)

National Toxicology Program (NTP)

29 CFR part 1910, subpart Z

California Proposition 65

Product does not contain ingredients classified as carcinogens Product does not contain ingredients classified as carcinogens Product does not contain ingredients classified as carcinogens Product does not contain ingredients classified as carcinogens

WHO (2003) Nitrate in drinking water

No association between nitrate exposure in humans and the risk of cancer

Assessment/classification: Based on available data, the classification criteria is not met

### **Other Toxicological Information**

This product contains trace amounts of naturally occurring perchlorate and iodate. Like other goitrogenic substances, perchlorate may affect iodine uptake by thyroid under specific conditions.

Technigro 24-7-15 Plus Page 4 of 6

### 12. Ecological Information

No data for the mixture, information refers to potassium nitrate.

#### **Ecotoxicity**

### **Aquatic Toxicity**

Potassium nitrate

96-h LC50 1378 mg/L Poecilia reticulate (freshwater fish) 24-h EC50 490 mg/L Daphnia magna (freshwater flea)

10 d EC50 >1700 mg/L Several algae species

Assessment/classification: Based on available data, the classification criteria are not met

#### Persistence and degradability

This product contains mainly inorganic nitrate and phosphate salts. In aqueous solutions, these salts dissociate into their respective ions. Phosphate ions are finally incorporated into the P-cycle. Under anoxic conditions, denitrification occurs and nitrate is ultimately converted into molecular nitrogen as part of the Nitrogen cycle.

# Bioaccumulative potential

Low potential for bioaccumulation based on physicochemical properties of the main components.

### Mobility in soil

The components of this mixture have a low potential for adsorption. Portion not taken up by plants can leach to groundwater.

#### Other adverse effects

Excess nitrate leaching may enrich waters leading to eutrophication.

# 13. Disposal Considerations

Disposal should be in accordance with applicable federal and state laws.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal method in compliance with applicable regulations.

This product is not listed as dangerous waste in the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

# 14. Transportation Information

### **US DOT (49CFR part 172)**

UN No. Non dangerous good **UN Proper Shipping Name** Not applicable Hazard class Not applicable Packing group Not applicable Hazard label(s) Not applicable
